Comfort, Security, and Ease are the synthesis of our commitment for a perfect Smart Home Automation system. Here at Vibe Smart Homes we focus our expertise on offering state-of-the-art product solutions that cater to the needs of every household. Our Smart Home Automation offers innovative solutions, designed to make a comfortable living environment, according to your mood and requirements as well as changing external conditions. It looks after your home in the best possible way, making your life comfortable for you and your loved ones. With Vibe Smart Homes you get to choose between a wide array of products, featuring exquisite designs that blend in smoothly with any décor.

The new Vibelite is the next step towards evolution of the Vibe Smart Homes Automation solutions. It combines comfortable living with energy saving, using sophisticated technology to improve your well-being and reducing system cost to a fraction of the existing integrated automation solutions. Economical and extremely easy to install, incorporating a smart home automation system into your home has never been so effortless. New modules and functionalities can be added any time, automating your home according to your requirements; assuring comfort and savings, all with a single touch, without sacrificing style or convenience. The Vibe lite series works with all of your smart speaker devices. Connect them with Amazon Echo or Google Home and bring your smart home to life.

#### 8-in-1 capacitive feather touch 4 module unit

##### Fan regulator- 1

Rated Load- Resistive load: **200W**  
(Tungsten & Halogen lights),  
Inductive load: **100W**

##### Dimmer switch- 1

Rated Load- Resistive load: **200W**  
(Tungsten & Halogen lights),  
LED load: **100W**

##### On/Off switch- 5

Rated Load- Resistive load: **700W**  
(Tungsten & Halogen lights),  
Inductive load: **350W** (Fan and Motor),  
LED load: **100W**

##### 16Amp switch- 1

Rated Load- Resistive load: **2000W**  
(Tungsten & Halogen lights),  
Inductive load: **1000W** (Motor),

A harmonious arrangement of a diverse array of smart devices all fitted seamlessly into one combo switch.

This switch combines a fan switch, a dimmer switch, four regular switches and a power switch all compressed in one 4 module device.

## WIFI 8 IN 1 CHANNEL COMBO SWITCH

Modifying the schedule of any of the devices in this switch would further translate to huge savings by cutting down on your energy consumption.

#### App control:

Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

#### Mobile phone remote control:

In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

#### Voice control:

Supports Amazon Alexa, Google Home

#### Smart sharing:

You can share control with friends or family

#### Manual switch:

Switching on/off status by clicking the switch buttons

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** | Power consumption in standby mode : **0.5W** | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control** | ON OFF cycle (at rated load): **Over 1,00,000 operations**

## WIFI POWER SWITCH

Convenience, simplicity and an unmatched aesthetic appeal, we take care of it all.

The power switch lets you control and schedule all your heavy loads such as your AC and water heaters from anywhere anytime.

**One capacitive feather touch**  
**2 module 30 amp switch**

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

## WIFI FOUR SWITCH

**4-in-1 capacitive feather touch**  
**2 module 4 switches**

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

The WiFi four switch module allows you to control four electronic devices or lighting at the same time, from just about anywhere with the vibe app on your smartphone.

Apart from its multitasking feature, this switch is topped off with a stylish appearance, making it a great fit for any home and design!

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** |  
Rated load: **a) Resistive load: 4000W** (Tungsten & Halogen lights), **b) Inductive load: 2000W** (Motor), **c) LED load: 300W** | Power consumption in standby mode : **0.5W** |  
Supports **IFTTT** | Supports **Timer, Schedule, Scenes** | Manual switching

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** |  
Rated load: **a) Resistive load: 800W** (Tungsten & Halogen lights), **b) Inductive load: 400W** (Motor), **c) LED load: 100W** | Power consumption in standby mode : **0.5W** |  
Supports **IFTTT** | Supports **Timer, Schedule, Scenes** | Manual switching

## WIFI CURTAIN SWITCH

Set automation rules for smart home behavior that adapts to your lifestyle and usage habits.

With the curtain switch you won't need to get up to draw the curtains when you're all cozied up in your blanket.

Just use your mobile phone to control the curtains, and also set schedules that go along with the time of the day, as well as your mood. Each module lets you control two curtains motors

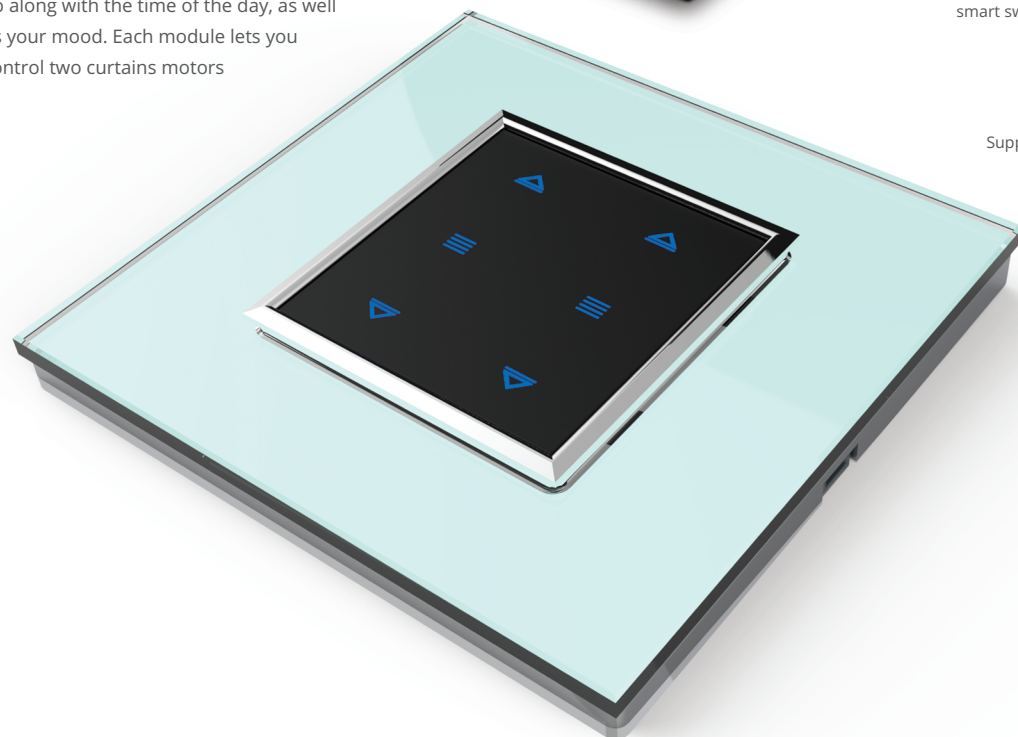

**2-in-1 capacitive feather touch**  
**2 module drape/curtain motor controller**

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** | Rated motor load per switch : **1400W** | Power consumption in standby mode : **0.5W** | Supports **IFTTT** | Supports **Timer**, Schedule, **Scenes** | **Manual switching**

## WIFI DIMMER SWITCH

A dimmer is a great way to set the mood for your home.

You can even set a dynamic schedule for your lights while you are away on vacation to mimic your normal routine; thus keeping intruders at bay.

Choose from a multitude of options to set scenes to go along with the ambiance as well as your schedule.

Set the mood for a vibrant evening or slowly dim off at night as you fall asleep, all with a simple command.

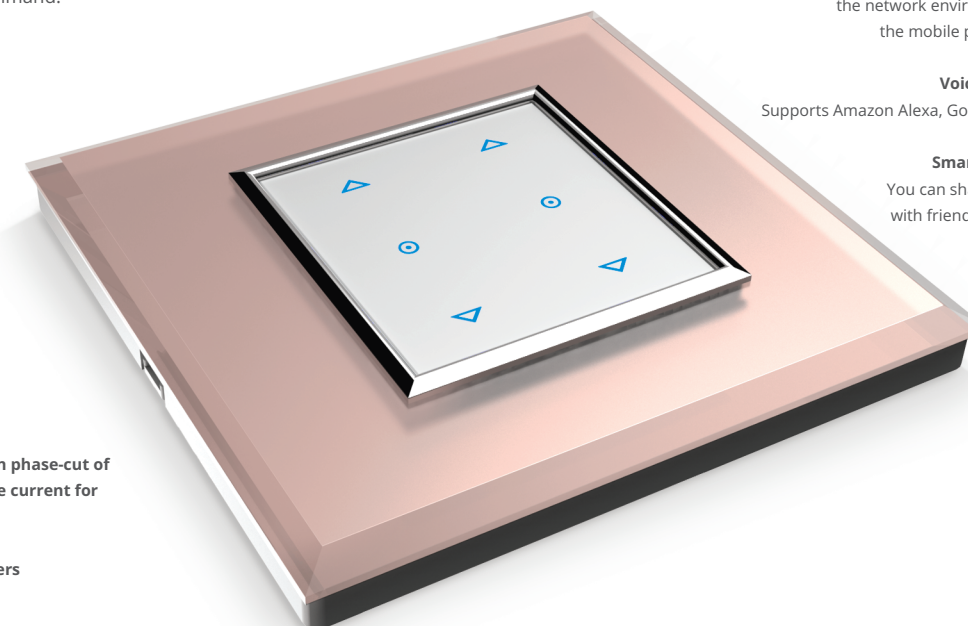

**2-in-1 capacitive feather touch**  
**2 module drape/curtain motor controller**

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

**Not suitable for Fans & CFLs**

**TRIAC based dimmer:** Works on phase-cut of the input AC supply to regulate current for dimming the appliance

**Use only with compatible drivers**

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** | Rated load per switch: **a) Resistive load: 400W** (Tungsten & Halogen lights), **b) LED load: 150W** | Power consumption in standby mode : **0.5W** | Supports **IFTTT** | Supports **Timer**, Schedule, **Scenes** | **Manual switching**

## WIFI FAN REGULATOR SWITCH

The perfect mood for your home is incomplete without the perfect feel and environment.

Adjust the air flow to create that perfect feel that goes along with the perfect environment. And all it takes is a command for creating your very own utopia.

**One capacitive feather touch**  
two module 7-step fan regulator

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

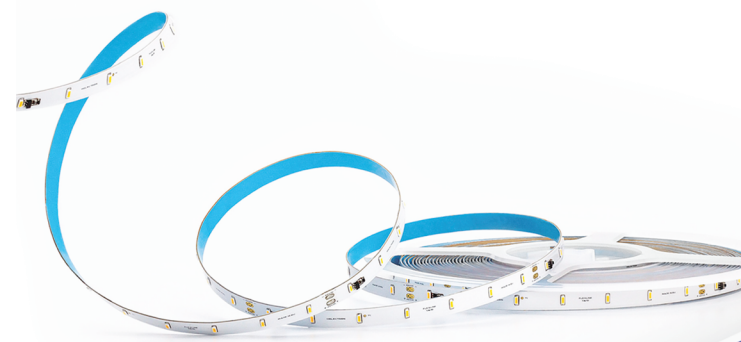

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

Supply voltage : **240V AC, 50Hz** | Radio Frequency : **2.400 ~2.4835GHz** | Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Rated voltage : **160-270V AC 50Hz** | Power consumption in standby mode : **0.5W** | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control** | **Manual switching** | Rated load: **a) Resistive load: 200W (Tungsten & Halogen lights), b) Inductive load: 100W** | ON OFF cycle (at rated load): **Over 1,00,000 operations**

## WIFI RGBW CONTROLLER

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

Whether it is a movie night, an intimate dinner for two or a party with friends, lighting establishes the right mood.

Turn the lights on or off, change the brightness, or choose from a variety of colours and combinations, with the RGBW controller. Our app lets you control and use additional features, such as scheduling, timers, and conditional programming.

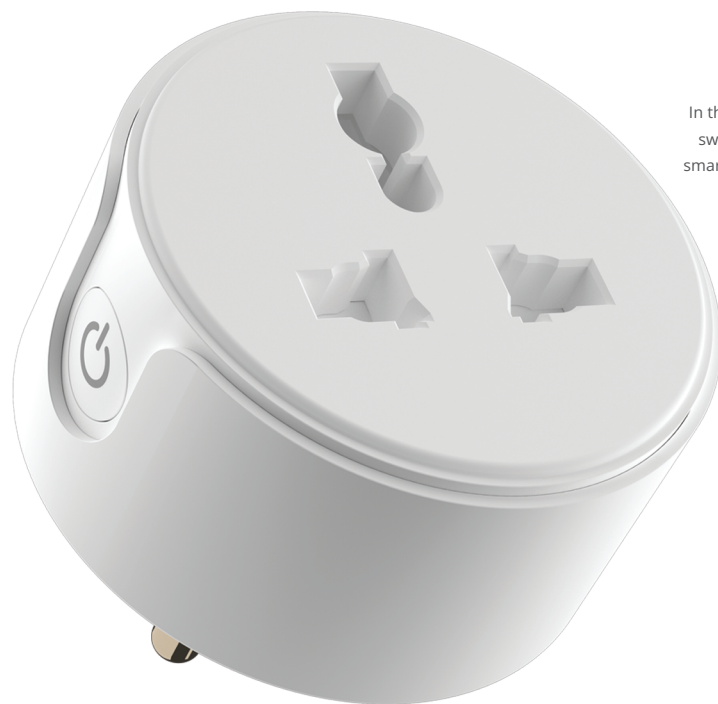

The RGBW controller connects to any regular LED/RGBW strip and lets you change the brightness, set schedules and timers, create conditional commands as you like. Your home is now your canvas.

Input & output voltage : **12/24V DC** | Maximum input current : **20.5A** | Max output current per channel : **6A** | Max output power per channel : **60-180W** | Max output current: **15A** | Operating temperature : **-20 to 50C** | Wireless standard : **2.4GHz 802.11b/g/n** | Radio frequency frequency : **2.400 ~2.4835GHz** | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control**

## 10A SMART PLUG

This smart socket directly connects to the Internet via your home WiFi wireless network. You can turn on/off the socket from any place with a network connection via your smartphone.

You can also control the state of the appliance connected to this Smart socket through voice command after connecting it to Amazon Echo or Google Home.

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

**Energy monitoring:**  
You can view power consumption statistics of connected appliance using app

Input voltage : **AC100~240V** | Input frequency : **50/60Hz** | Maximum load current : **Resistive, maximum 10A** |  
Wireless Standard : **Wi-Fi 2.4GHz 802.11b/g/n** | WIFI frequency : **2.4GHz** | Security Mechanism : **WPA/WPA2** | Encryption type : **WEP/TKIP/AES** |  
Working power consumption : **< 1.3W** | Standby power consumption : **< 0.7W** | Indicator light : **Blue LED** | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control** | **Manual switch:** Switching on/off status by clicking the switch button on the socket

## 16A SMART PLUG

You can control any electrical device plugged into this socket from the local network or remote network, such as fans, lights, water heaters, fountains, etc.

The socket has timing function and scheduling function.

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

**Energy monitoring:**  
You can view power consumption statistics of connected appliance using app

Input voltage : **100-250V AC** | Maximum output current : **16A** | frequency : **50/60Hz** | Wireless standard : **Wi-Fi 2.4GHz 802.11b/g/n** | Radio frequency : **2.400 ~2.4835GHz** |  
Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control** | **Manual switch:** Switching on/off status by clicking the switch button on the socket

## WIFI IR CONTROLLER

### App control:

Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

### Mobile phone remote control:

In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

### Voice control:

Supports Amazon Alexa, Google Home

### Smart sharing:

You can share control with friends or family

In the rare event that any of your devices is not present in our IR remote database; you can control the devices you want by simply learning the functions of the original remote, such as heater, ceiling fans, LEDs and all infrared remote control devices using the DIY remote learning function.

Note: DIY learning function only supports infrared remotes and not RF remotes. DIY controlled devices only smartphone app control and are not compatible with Alexa, Google Home.

Vibe Lite IR Controller can replace most of the traditional remote controls in your home. Supports 80,000+ IR (IR only, not RF) controlled devices. Integrate almost all infrared remotes to your smartphone.

Control your home's devices from your smartphone anytime, anywhere, safe and efficient.

Your Air Conditioning Partner. You can say, "Alexa, turn on/off Air Conditioning, turn up/down temperature, set temperature to (value)" etc. You can set the comfort temperature by smartphone before you go home. Enjoy it all when you get home.

Power input : **DC 5V/1A** | Standby power consumption : **≤0.5W** | Working temperature : **0~50°C 32~122** | Infrared frequency : **38 KHz** | Infrared direction : **multi-directional infrared** | Wireless Standard : Wi-Fi 2.4GHz 802.11b/g/n | Supported device : Android 4.0/iOS 8.0 and above | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control**

## WIFI POWER STRIP

You can control any electrical device plugged into this power strip from the local network or remote network, such as fans, lights, water heaters, fountains, etc. The socket has timing function and scheduling function.

Using Vibe Lite App users can implement remote control, power statistics, switch timing, overcurrent protection, shared devices, group creation, and firmware upgrades for universal Wi-Fi power strip.

Input & output voltage : **110-250V AC** | Maximum input current : **10A** | frequency **50/60Hz** | single port maximum output USB module **5V 2.1A** | total output power USB module total **15W** | output current **3.1A** | Wi-Fi **TYWE3S** | Wireless standard **Wi-fi 2.4GHZ 802.11b/g/n\** | Radio frequency **2.412~2.484GHz** | Supports **IFTTT** | Supports **Timer, Schedule, Scenes, Group control** | **Manual switch**: Switching on/off status by clicking the switch button on the power strip

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**Mobile phone remote control:**  
In the case that the mobile phone and the switch are connected to the Internet, the smart switch can be remotely controlled in the network environment by the mobile phone app.

**Voice control:**  
Supports Amazon Alexa, Google Home

**Smart sharing:**  
You can share control with friends or family

**Energy monitoring:**  
You can view power consumption statistics of connected appliance using app

The wifi power strip is a portable solution that allows you to control multiple devices in your home or office.

Once this smart power strip is connected successfully to the vibe app, each of these sockets can be controlled and scheduled individually.

You can configure these to go along with your timetable and help reduce your carbon footprint

The security of your home is our number one priority and keeping your home and family safe is much easier with smart home technology.

The Smart door lock grants you a variety of authentication methods to choose from, suited to your particular needs and thus giving you complete peace of mind.

The Door lock can be operated via biometrics, pin code, RFID tags, physical keys and remotely using the Vibelite app. And to help you feel more secure, the smart door locks keep a close eye on your home and ensures that it is protected at all times even when you're away.

## SMART DOOR LOCK

**App control:**  
Supports Vibe Lite app control (iOS 8.0/Android 4.1 or higher)

**One lock, many ways to unlock:**  
Biometric fingerprint unlock  
App unlock  
RFID card unlock  
Password unlock  
Mechanical key unlock

**Unlock alerts:**  
Get notified when your door is unlocked

**Record function:**  
View lock/unlock log in app

Internal water-resistant seal to protect vital electronic components

Self contained battery powered system- requires 4x AA Alkaline batteries (not included)

Low battery alarm

**No Hub Required:**  
No confusing central hubs to set up here.

Made of Zinc Alloy stainless steel that is durable and secure. It's easy to clean and not easy to rust

Suitable Door Thickness: **40-100mm** | Working Temperature: **-30~70 degree** | Identify time : **0.3sec** | Supply Voltage : **6V** | Low Voltage Warning : **4.8V** | Fingerprint Sensor : **Semiconductor**
